

AIXCC STAGE SCHEDULE

SUBJECT TO CHANGE

Friday, August 8th

- 12:30 PM

AI in OT Should be Cheaper Than in IT
Daryl Haegley, Technical Director, Air Force & Space Force Control Systems Cyber Resiliency
- 1:30 PM

Driving Tech Forward: A Fireside Chat with Perri Adams and Alexei Bulazel
Alexei Bulazel, Special Assistant to the President and National Security Council Senior Director for Cyber;
Perri Adams, Fellow, Institute for Security, Technology, and Society at Dartmouth College
- 2:05 PM

The Path Towards Self-Defending Systems
Heather Adkins, Google
- 2:40 PM

From Data Security to Discovery: How ARPA-H is Using AI to Transform Health Care in America
Jennifer Roberts, Ph.D., Resilient Systems Mission Office Director; Andy Kilianski, Ph.D., Program Manager and acting Health Science Futures Mission Office Deputy Director; Ross Uhrich, DMD, MBA, Program Manager; Andrew Carney, AIXCC Program Manager (moderator)
- 3:25 PM

Autonomous System Demo
Mike Walker, Senior Director at Microsoft Research
- 3:45 PM

An update from the LLM scaling laws frontier
Jason Clinton, CISO, Anthropic
- 4:20 PM

Orchestrating the Reasoners
Ken Harding, Competitor Interface Lead, Kudu Dynamics LLC; Jeff Casavant, Maintainer Interface Lead, Kudu Dynamics LLC; Scott Lee, Scoring & Challenge Research Lead, Kudu Dynamics LLC; Jon Siliman, Researcher Interfaces Lead, Kudu Dynamics LLC; Isaac Goldthwaite, Challenge Design Lead, Kudu Dynamics LLC; Nicholas Vidovich (moderator)
- 5:00 PM

Challenges and Lessons from the AIXCC Journey: A Perspective from 42-b3yond-6ug
Xinyu Xing, professor/President, Northwestern University / B3YOND
- 5:30 PM

“Robo Duck” Architecture
Tyler Nighswander, Theori

Saturday, August 9th

- 10:30 AM

Applying DevSecOps Lessons to MLSecOps
Christopher Robinson, Chief Security Architect, OpenSSF; Sarah Evans, Security Research Program Lead, Dell Technologies; Eoin Wickens, Director of Threat Intelligence, HiddenLayer; Jeff Diecks, Technical Project Manager, OpenSSF (moderator)
- 11:30 AM

Impossible Until It Isn’t: DARPA, Disruption, and the Future of Cyber
